Let's pour on the aloha! Let's make sure those who visit us this spring have unforgettably wonderful visits.

PROGRAM SUMMARY

Recently our camera took you inside a Bellanca Pacemaker, the first plane that Hawaiian airlines ever flew, starting in 1929. The Bellanca can teach us some modern lessons, I think. Hawaiian, then called Interisland Airways, gave free aerial tours to show people what it was like to fly. Free samples of new products is as effective today as it was 81 years ago. Second, Hawaiian management today saw value in reconnecting their employees with their heritage. Third, one of the most frequent pilots of the Bellanca is Mark Dunkerley, Hawaiian's CEO. More corporate CEO 's should get their hands dirty from time to time so they, too, can see the big picture as the employees do.

If Chinese tourists come here in large numbers, are we ready? How many truly fluent Mandarin speakers have we got? Do we understand modern Chinese culture or only the old ways? Pretty soon now, this is going to matter.

It's a good thing when consumers give you an affectionate nickname, like coke, mac or Chevy. Second, maybe a good way of judging a business's behavior is when its brand name is too admired to even consider changing.

As Hawaii works to climb back to prosperity, it's important for decisionmakers in Honolulu to remember that things can look very different from islands other than Oahu.
